Education

University of Petroleum & Energy Studies, Dehradun, India
B.Tech CSE (Hons.), Full Stack Development

2023 – Present
CGPA: 8.01 (Current)

Intermediate and Matriculation (CBSE)

St. Mark's Sr. Sec. Public School, Meera Bagh, New Delhi

Matriculation (X): 83.4%
Intermediate (XII): 80%

Work Experience

Full Stack Developer Intern | Onzen Software LLP

June – July 2026

- Developed a browser-based automated interview platform using React, Node.js, Express.js, FastAPI, and MongoDB Atlas, enabling secure interview links, candidate onboarding, interview scheduling, and automated video recording.
- Implemented an interactive interview workflow with silence-based question progression, real-time response capture, and AI-powered speech-to-text transcription using Faster-Whisper for automated interview analysis.
- Designed a scalable microservices architecture integrating Cloudinary and MongoDB Atlas for secure video and transcript storage, session management, backend validation, REST APIs, and responsive frontend experiences.

Software Testing Intern, Harman Connected Services India Pvt. Ltd.

June – July 2025

- Architected an automated testing framework using **PyTest** and **Selenium** while implementing the **Page Object Model (POM)**, Automated 30+ test cases, reducing manual testing effort by 40%.
- Designed a scalable automation test suite structure enabling efficient maintenance and future expansion.

Projects

BillSense – Document-Driven Resource Intelligence Platform

- Technologies:** Android, Kotlin, Jetpack Compose, Node.js, Express.js, FastAPI, Python, Kraken OCR, OpenCV, MongoDB Atlas
- Developed an OCR-powered Android application using Kotlin, Jetpack Compose, Kraken OCR, and OpenCV to extract structured bill data, automate expense tracking, and eliminate manual data entry.
- Engineered a scalable microservice architecture using Node.js, Express.js, FastAPI, REST APIs, and MongoDB Atlas for secure bill processing, OCR integration, and cloud-based data management.
- Implemented analytics and reporting features including expense categorization, monthly spending trends, vendor insights, OCR confidence scoring, and historical bill management through an interactive dashboard.

ReachInbox – Automated Email Outreach and Scheduling Platform

- Technologies:** TypeScript, React, Express.js, Prisma, MySQL, Redis, BullMQ, Elasticsearch, Nodemailer, Slack OAuth, Docker
- Developed a full-stack email outreach platform with Google authentication, campaign scheduling, CSV/text recipient uploads, sender selection, and scheduled/sent email dashboards.
- Engineered persistent BullMQ delayed jobs with Redis-backed concurrency control, per-sender rate limiting, hourly quotas, automatic rescheduling, and restart-safe email processing.
- Integrated Ethereum SMTP for email delivery, Elasticsearch for searchable email records, Slack for rate-limit alerts, and Bull Board for real-time queue monitoring.

Skills

Programming Languages: Java, Python, JavaScript, TypeScript, Kotlin, SQL

Web Technologies: HTML5, CSS3, REST APIs, Responsive Web Design

Frameworks & Libraries: React.js, React Native, Jetpack Compose, Tailwind CSS, Node.js, Express.js, FastAPI, Prisma ORM

Databases, Cloud & Infrastructure: MongoDB, MongoDB Atlas, MySQL, Redis, Elasticsearch, Cloudinary, Docker

Queues & Integrations: BullMQ, Google OAuth, Slack OAuth, Nodemailer, Ethereum SMTP

AI & Computer Vision: Faster-Whisper, Kraken OCR, OpenCV, Regex-Based Data Extraction

Testing & Automation: PyTest, Selenium, Postman, API Testing, Functional Testing, Regression Testing, Test Case Design

Core Skills: Full-Stack Development, Microservices Architecture, API Integration, OAuth 2.0, JWT Authentication, Backend Development, Data Validation, OCR Pipeline Development

Soft Skills: Leadership, Teamwork, Communication, Adaptability, Time Management

Certifications & Achievements

- AWS Certified Developer – Associate (DVA-C02) | Amazon Web Services (2026)
- Winner, SPE Hackathon (2025)
- Winner, Code Hustle Hackathon (2024)
- Participant, Full Stack Development Workshop, IIT Roorkee
- Winner at State and National Level Robotics Competitions; Qualified for Internationals
