

# Nandik Dawar

New Delhi

+91 9013016098   nandik1710@gmail.com   nandik-dawar   Nandik1710

## Education

**University of Petroleum & Energy Studies, Dehradun, India**

*B.Tech CSE (Hons.), Full Stack Development*

2023 – Present

CGPA: 8.01 (Current)

**Intermediate and Matriculation (CBSE)**

*St. Mark's Sr. Sec. Public School, Meera Bagh, New Delhi*

Matriculation (X): 83.4%

Intermediate (XII): 80%

## Work Experience

**Full Stack Developer Intern, Onzen Softwares LLP**

June – July 2026

- Developed a full-stack browser-based Automated Interview Platform using React, Node.js, Express.js, FastAPI, MongoDB Atlas, and REST APIs, featuring secure interview links, candidate onboarding, automated video recording, silence-based question progression, and AI-powered speech-to-text transcription using Faster Whisper.
- Designed and implemented a scalable microservice architecture integrating Cloudinary and MongoDB Atlas for secure storage of interview recordings, transcripts, and metadata, with secure session management, backend validation, responsive UI, and an end-to-end automated interview workflow.

**Software Testing Intern, Harman Connected Services India Pvt. Ltd.**

June – July 2025

- Architected an automated testing framework using **PyTest** and **Selenium** while implementing the **Page Object Model (POM)**, Automated 30+ test cases, reducing manual testing effort by 40%.
- Designed a scalable automation test suite structure enabling efficient maintenance and future expansion.

## Projects

**BillSense** – Document-Driven Resource Intelligence Platform

- Technologies:** Android, Kotlin, Jetpack Compose, Node.js, Express.js, FastAPI, Python, Kraken OCR, OpenCV, MongoDB Atlas
- Developed an OCR-powered Android application using Kotlin, Jetpack Compose, Kraken OCR, and OpenCV to extract structured bill data, automate expense tracking, and eliminate manual data entry.
- Engineered a scalable microservice architecture using Node.js, Express.js, FastAPI, REST APIs, and MongoDB Atlas for secure bill processing, OCR integration, and cloud-based data management.
- Implemented analytics and reporting features including expense categorization, monthly spending trends, vendor insights, OCR confidence scoring, and historical bill management through an interactive dashboard.

**Mental Wellness Web App**

- Technologies:** HTML, CSS, JavaScript
- Developed a mental wellness web app integrating doctor and therapist video consultations, journaling, real-time health tracking, guided meditation, breathing exercises, and an AI chatbot for personalized mental health support.

**CarRental** – MERN-based Car Rental Web Application

- Technologies:** MongoDB, Express.js, Node.js, React
- Implemented car browsing, booking, real-time availability checks, and secure authentication.
- Developed secure REST APIs with JWT authentication and role-based access control.
- Optimized backend with pagination and modular architecture for scalability.
- Created a responsive UI with filters, car detail pages, and booking management.

## Skills

**Programming Languages:** C, Java, Python, JavaScript, HTML5, CSS3

**Frameworks & Tools:** React.js, React Native, Kotlin, Jetpack Compose, Tailwind CSS, Node.js, Express.js, FastAPI, REST APIs

**Databases and Cloud:** MongoDB Atlas, MongoDB, MySQL, Cloudinary

**AI & Computer Vision:** Faster Whisper, Kraken OCR, OpenCV, Regex-Based Data Extraction

**Testing & Automation:** PyTest, Selenium, Postman, API Testing, Functional Testing, Regression Testing, Test Case Design

**Core Skills:** Full-Stack Development, Microservices Architecture, API Integration, Authentication (JWT), Backend Development, Responsive UI Development, OCR Pipeline Development, Data Validation, System Design

**Soft Skills:** Leadership, Teamwork, Communication, Adaptability, Time Management

## Certifications & Achievements

- AWS Certified Developer – Associate (DVA-C02) | Amazon Web Services (2026)
- Winner, SPE Hackathon (2025)
- Winner, Code Hustle Hackathon (2024)
- Participant, Full Stack Development Workshop, IIT Roorkee
- Winner at State and National Level Robotics Competitions; Qualified for Internationals
